

and 21 of the Commission's Rules Governing Use of the Frequencies in the 2.1 and 2.5 GHz Bands. That approval contained various rule parts contained in Parts 21 and 74 of the Commission's Rules. Since that time, all rule sections incorporated into that approval have been reapproved under different OMB control numbers expect Section 21.913. Section 21.913(g) permits an MDS or ITFS licensee to install and commence operation of low power signal booster stations without a formal application. Licensees seeking to install a low power signal booster station must, however, submit a certification demonstrating compliance with the various components of Sections 21.913(g). This certification must be submitted within 48 hours of installation of the booster station. The data are used by FCC staff to verify that the licensee has complied with guidelines to use the certification process and that the booster would not cause objectionable interference.
